DSc328

DSc328

COLOR WORKS FOR BUSINESS

Featuring out-of-the box multifunctionality, the DSc328 expertly manages all of your document creation, management and distribution requirements. And best of all, it's easy to add full color to important business documents with the DSc328's standard color on demand capability. Plus, the DSc328 produces black and white output at virtually the same cost as traditional black and white systems.

FLEXIBLE DOCUMENT DISTRIBUTION

More than just a copier or printer, the Gestetner DSc328 can also scan existing hardcopy and images – full color and black and white – directly to folders, FTP servers, or send them as e-mail attachments. This distribution flexibility enables colleagues to easily collaborate on group projects, while eliminating slow, traditional delivery alternatives. Additionally, the DSc328 offers optional fax functionality, enabling users to accommodate paper-based and electronic faxes routed directly to a PC. Finally, the DSc328's Internet Fax capability allows users to transmit faxes over the Internet, completely eliminating long distance phone charges.

A NEW WAY TO SHARE

With the Gestetner DSc328, sharing information across the workgroup could not be easier or more efficient. A variety of connectivity choices enable swift connections directly to your network or PC. Once connected, users have access to the DSc328's Document Server – a large HDD where a variety of documents – copies, prints, fax receptions and scanned hardcopy – are stored. Once stored, users can view, manage and manipulate them from the desktop with Web Image Monitor – a great way to maintain and update frequently changing documents such as HR manuals, Quarterly Reports and more. Additionally, Web Image Monitor enables users to check system status and availability, and alerts them to any service issues or paper and consumable replacement requirements... all without ever leaving their desks.

PRODUCTIVE FROM START TO FINISH

At 28 PPM for black and white output and 20 PPM for full color, the Gestetner DSc328 quickly generates high quality prints and copies. And, the DSc328's advanced duplexing capabilities allow you to print or copy two-sided documents without any reduction in running speed. Finally, you can configure your DSc328 with an optional finisher that automatically folds and staples output for a truly professional finishing touch.

THE NEW FACE OF BUSINESS COLOR

In today's business environment, the competitive advantage is more important than ever. And that's why you can't afford to overlook the benefits that the Gestetner DSc328 will bring to your business.
