

# LD255/265 LD275

DIGITAL MFP

*Powerful document management for departments*

*Three robust digital multifunction products engineered for high productivity, exceptional document quality, and easy operation in high-volume walk-up and networked environments*

*your document management partner*

# Fast output and advanced capabilities

To stay competitive, end-users in virtually every industry need document management systems that combine speed, quality, convenience, and advanced functionality. The Lanier LD255/265/275 digital multifunction products (MFPs) deliver on all counts. These high-performance systems offer exceptional productivity for digital copying, printing, and scanning, plus professional document finishing and more production features than most other systems in this class.

Specifically, the LD255/265/275 systems produce up to 55, 65, or 75 digital copies or prints per minute with outstanding 1,200 dpi image quality. All three MFPs also offer dual-sided scanning at 75 images per minute. Plus, they offer exceptionally high ease of use, whether you are a seasoned expert or have minimal training. The large LCD touch screen incorporates easy-to-read font sizes and brighter text for enhanced readability. The user interface offers step-by-step illustrations of how to clear misfeeds. A Simplified Display feature hides all but the most common choices to minimize clutter and simplify operation. These MFPs also offer concave keys that are easy to locate and press.

## **Multi-level security features**

The LD255/265/275 systems provide several ways to safeguard confidential documents. Windows authentication requires a username and valid password for system access, so you can keep track of individual user activity. Copy Guard protection allows you to create originals that render themselves unreadable if unauthorized users attempt to copy them on a similarly enabled device. The DataOverwriteSecurity System automatically overwrites the hard drive after every copy, print, or scan, so sensitive files are protected even if the system's hard drive is removed.

## **Simplified document distribution**

The LD255/265/275 systems offer a complete portfolio of document distribution tools. Scan-to-email now offers improved LDAP support, enabling users to pull addresses from a corporate directory in fewer steps. You can use a preview feature to make sure scans are accurate before sending them out via email or delivering them to a designated folder or FTP server. File names are created automatically, using sequential codes that make it easier to organize, search, and find specific files within large volumes of scanned documents.

*Choose the Lanier LD255/265/275 to significantly increase productivity, security, and ease of use in departmental environments.*

*These powerful systems come equipped with advanced functionality for document management, distribution, and finishing.*

Use the large LCD touch screen to set up jobs quickly and easily.

feature automatically adds accurate trim lines to output, which makes it easy to cut down output created with the double print and speed print features.

### **Advanced professional finishing**

Professional finishing options for the LD255/265/275 MFPs are extremely diverse. Choose from two 3,000-sheet finishers with 50-sheet or 100-sheet stapling, or select a saddle stitch finisher that produces booklets up to 60 pages (15 folded and stapled 11" x 17" sheets). Any of these integrated finishing solutions can be combined with an interposer for adding full-color covers, a Z-fold unit, and/or a 2/3-hole punch. The 100-sheet stapling finisher can also be configured with a GBC Streampunch module with interchangeable die sets. This unique capability enables you to achieve fully integrated inline finishing for plastic coil, WireBind, and many other innovative bindery options.

## **Versatile performance and advanced technology**

### **Enhanced printing capabilities**

These systems offer printing features not conventionally available with systems in this class. Imposition settings include double print, which duplicates every 8.5" x 11" page twice on an 11" x 17" sheet and creates two complete, ready-to-cut sets. You can also choose speed print, which delivers output in layout-friendly 11" x 17" signatures that will already be collated after stacking and cutting. Creep adjustment for booklets shifts images slightly so they are not hidden in the gutters of finished booklets. Finally, the crop mark

### **About Lanier**

Lanier Worldwide, Inc. is a wholly owned subsidiary of Ricoh Corporation, the Americas sales and marketing unit of Ricoh Company, Ltd., a \$17.1 billion global manufacturer of digital copier/printers. Lanier helps its customers succeed by understanding their unique document management needs and delivering systems and services that increase efficiency, reduce cost, and improve document workflow. Award-winning solutions include digital multifunction products (color and monochrome), printers (color and monochrome), multifunction facsimile, scanners, digital duplicators, and wide format systems, as well as facilities management and outsourcing services.

## SPECIFICATIONS

### GENERAL FEATURES

Type	Console
Max. Output Speed	55/65/75 ppm
Resolution	Real 1,200 dpi
First Copy Time	4.2/3.5/3.5 sec.
Document Feeder	RADF (100 sheets, up to 11" x 17")
Dual-sided Scanning	75 ipm (200 dpi)
Duplex	Unlimited (5.5" x 8.5" to 12" x 18")
Multi-bypass	100 sheets (5.5" x 8.5" to 12" x 18")
Document Server	80GB (up to 3,000 documents, up to 2,000 pages per document)
HDD	80GB
Standard Paper Supply	2 x 1,550-sheet tandem tray, 2 x 550-sheet trays, 1 x 100-sheet bypass
Max. Paper Capacity	8,300 sheets (with optional 4,000-sheet LCT)
Reductions/Enlargements	7/5 presets, 25% to 400% zoom in 1% increments
Dimensions (WxDxH)	27" x 31" x 46"
Weight	454 lbs.
Power Requirements	120V, 60Hz, 20A
Security Features	User/Windows authentication, DataOverwriteSecurity System (DOSS), Unauthorized Copy Control (RPCS only)
Special Printing Features	Imposition settings: Double and Speed Print, Creep (for booklets), Crop Mark
Memory	256MB std., 512MB max.
Printer Languages	Standard: PCL5e, PCL6, RPCS Optional: Adobe PS3, IPDS
Interfaces	Standard: Ethernet RJ45 (100 Base-TX/10 Base-T), USB 2.0 Optional: Wireless LAN (IEEE802.11b), IEEE1394 (6-pin), Parallel Port IEEE1284 Type C, Bluetooth, USB Host, 1000 Base-T Ethernet
Drivers	Standard: PCL5e, PCL6, RPCS Optional: Adobe PS3
MIB Support	Standard: MIB-II, Host Resource, Printer MIB Private MIB: Ricoh Original
Network Support	Windows 95/98SE/Me/NT 4.0/2000/XP/Server 2003; Netware 3.12, 3.2, 4.1, 4.11, 5.0, 5.1, 6, 6.5; Unix: Sun Solaris; HP-UX; SCO OpenServer; RedHat Linux; IBM AIX; Mac OS 8.6-9.2x, OS X 10.1 or later; SAP R/3; NPDS Gateway; IBM iSeries/AS/400-using OS/400 Host Print Transform

Network Protocol	TCP/IP, IPX/SPX, SMB, AppleTalk (Auto Switching)
Imaging	Optical resolution: 100 – 600 dpi Output format: TIFF (multi/single), JPEG, PDF (multi/single), high-compression PDF
Special Scanning Features	Scan-to-Email, Scan-to-Folder, Simultaneous Scan-to-Email/Scan-to-Folder, LDAP Support
Utilities	SmartDeviceMonitor for Admin/Client, DeskTopBinder Lite, Printer Utility for Mac, PDF Direct Print, Web Image Monitor

### OPTIONAL ACCESSORIES

Large Capacity Tray	4,000 sheets
Finishers	3,000 sheets, 50-sheet stapling 3,000 sheets, 100-sheet stapling Saddle stitch finisher (50 sheets LTR)
Z-Fold Unit	Folds 8.5" x 11", 8.5" x 14", or 11" x 17"
Cover Interposer	200 sheets (up to 11" x 17")
Hole Punch	2/3-hole punch (with either 3,000-sheet finisher or saddle stitch finisher) 3-hole punch and GBC Streampunch (with 3,000-sheet finisher/100-sheet stapling only)
Copy Connector	Runs two systems simultaneously

### SCANNER MODULE

Scan Speed	75 ipm (monochrome)
Imaging	Optional resolution: 100 – 1,200 dpi Output format: TIFF (multi/single), JPEG, PDF (multi/single)
Connectivity	Ethernet 10/100 Base-TX, Giga Ethernet, IEEE1394, Wireless LAN (802.11b)
Scan-to-Email/Folder	Max. destination addresses: 500 (local HDD), 100 (LDAP) Max. stored destination addresses: 2,000
