### COLOR IN THE WORKGROUP

With the Gestetner C7006w or C7006dw on your network, everyone in your office or workgroup can unleash his or her creative side.

- Seamless integration with today's most popular network platforms and protocol support for TCP/IP, IPX/SPX, EtherTalk, NetBEUI and IPP are a snap when you add the optional Ethernet Network Interface Card.
- Easily monitor the performance of any C7006w or C7006dw on your network with the Gestetner Net Vision management utility. You'll be able to see – via an icon on the Windows taskbar – essential information about your printer, such as toner and paper supply levels.
- Unlock additional network printing capabilities with the PortNavi utility. Recovery Printing alerts users to problems and gives them the option to redirect the print job to another C7006w or C7006dw, ensuring the timely completion of jobs. Parallel Printing allows users to send large print jobs to up to 11 C7006w or C7006dw systems simultaneously – further maximizing output productivity.

### COLOR THAT LOOKS GREAT

- Impress your readers with full color output that jumps off the page, and black and white output that is crisp and clean. Advanced Screening and Super Fine Toner Technology combine to bring you an incredible 1800 dpi x 600 dpi print resolution.

### COLOR THAT WON'T SLOW YOU DOWN

- Process full color and black and white images at top speed thanks to the C7006w and C7006dw's 177 MHz Processor and up to 256 MB of RAM.
- Output documents that are a mix of color and black and white pages more efficiently using the Automatic Color/Monochrome Page Detection feature. Full color pages print at 6 PPM, while black and white pages print at 24 PPM.

### COLOR THAT HAS NO LIMITS

- Ensure compatibility with a wide variety of general business and graphics software with standard IPDL-C and Postscript Level 2 emulation drivers.
- Produce professional booklets, manuals and newsletters – all in-house. Automatic Duplexing (C7006dw only) lets you easily print on both sides of the paper, which significantly reduces your paper costs.
- Create anything you want right from your own desktop. Print onto a variety of media including #10 envelopes, card stock, transparencies and 12" x 18" paper with 11" x 17" full bleed.

### COLOR THAT'S SIMPLY SPECTACULAR

When you add color to your documents, you're assured of "read me first!" as opposed to "file me now!" results. At Gestetner, our goal is to help you make a good impression; and we have the network output systems – from full color to black and white to intelligent multifunctional – that make looking good on paper easier than ever.
